

Interested in Ecology?

Join Our Open Ecology Colloquium!

UNIVERSITÄT
HOHENHEIM

**Tuesdays, 16:15 - 17:45 in Lecture
hall HS 4, West Wing (in person only)**

Date	Speaker / Affiliation / Topic
27/10/2026	Matthias Dolek (Ökologische Forschung und Planung GEYER & DOLEK): Conservation of butterflies in southern Germany: Different approaches and methods for a successful management of habitats
03/11/2026	Christian Levers (Thünen Institute of Biodiversity): Fields, farms, and landscapes: Understanding the impacts of agriculture on biodiversity
10/11/2026	Benoît Pichon (State Museum of Natural History Stuttgart): TBA
17/11/2026	Malte Jochum (University of Würzburg): Above-belowground interaction ecology under global change
24/11/2026	Felipe Librán-Embid (University of Giessen): Realigning crops with their biotic environment: a biogeographical strategy for climate-resilient agriculture
01/12/2026	Christoph Kurze (University of Regensburg): When the colony fails: how thermal stress disrupts bumblebee development and survival
08/12/2026	Stefan Haselberger (University of Graz): Biogemorphic feedbacks in alpine systems
19/01/2027	Michael Orr (Stuttgart Naturkundemuseum): Much ado about bee distribution
26/01/2027	Cassandra Vogel (University of Hohenheim): From species to functions: how biodiversity can stabilise ecosystem services under global change

Organized by the Departments of **Landscape Ecology and Vegetation Science (320a)**, **Plant Ecology (320b)**, **Ecology of Tropical Agricultural Systems (490f)**, and **Applied Entomology (360c)**.

Contacts for organizational questions: Dr. Su'ad A. Yoon (suad.yoon@uni-hohenheim.de) or Dr. Asif Rahman-Soad asifur.soad@uni-hohenheim.de
